TITLE : EARTHING SPRING FITTING FOR
SHIELD CONNECTOR AND
MANUFACTURE THEREOF

ABSTRACT : PURPOSE: To provide a earthing spring fitting for a shield connector capable of simply manufacturing and fixing and having large floating amount.

CONSTITUTION: A cylindrical main body 1 formed with an elastic metal plate, a tongue-shaped fixing part 3 formed in each of a plurality of circumferential positions of the main body 1, and a supporting part 4 are included. The fixing part 3 is aslant extruded to one end side in the axial direction from the outer part in the radial direction in the periphery at the other end in the axial direction and a U-shaped fixing groove 3A is formed at the tip. In the supporting part 4, the inner part in the radial direction is slant extruding to one end or the other end in the axial direction from one end or the other end of the main body 1.
